

SUMMER

Professional Development

Choose from 4 strands of learning opportunities in June and July.
Participate in as many sessions, events, and activities as you like.

 **Make a Connection** with experts and maker educators, connect with peers and the Amazeum team in an informal setting.

 **Try a Skill** and build personal maker skills through unique creativity-driven opportunities.

 **Hands-on Pedagogy** workshops enhance opportunities for your students by developing your maker skills and strategies to cultivate a rich maker learning environment.

 **Educator Learning Community** wrestles with and defines complex problems then collaborates on creative solutions.
