

Explore: Float Trip

What is the Explore: Float Trip Unfield Trip?

Explore: Float Trip is a fun way to bring a Hershey's Lab experience into your classroom! Your students will explore density by testing household treats with the sink or float method. This sink or float activity includes an engineering challenge at the end.

What is included in the Explore: Float Trip kit?

Each Float Trip classroom bundle come in a large container and includes 26 individually wrapped kits with the following materials: assorted Hershey's candies, chenille sticks, popsicle sticks, paperclips, aluminum foil, and activity guides. Most of the supplies needed for the activity are provided in the kit.

Which grade level is Explore: Float Trip designed for?

Float Trip is great for pre-K through 3rd grades as you make predictions, explore density, and engineer a raft to make objects float.

What is the video call check-in with the Amazeum team?

A Hershey's Lab Educator from the Amazeum will spend time leading, coaching, and facilitating this activity with you and your students through a video call.

How do I reserve Explore: Float Trip for my students?

Make your reservation for an Explore Unfield Trip today! Call 479-696-9280 ext 204, Mon–Fri, 8:00 am – 4:00 pm. Or email our Reservation Specialist at reservations@amazeum.org. Advanced registration and payment is required.
